PADILLA PROPOSES NEW MEXICO LEAGUE

Barcelas Grays Organize For the Season and Want Games With New Mexico Towns.

Manager Padilla of the Barcelas Grays baseball team is having his troubles these days. Several towns are trying hard to get some of his players but despite the excellent offers of positions and salaries in the various cities, the boys are so far determined to stick together during the coming season and prove to the surrounding country that they have one of the most capable teams in the southwest. Pena, the crack pitcher for the Grays has received several letters from Winslow asking him to come to that city to join the team there, offering him a liberal salary. The little mining town of Carthage is hot on the trail of Pitcher Hidalgo and has made him excellent offers if he would come to the aid of the team being organized there. Salazar, the Barcelas third baseman, is wanted by the Gallup team.

Manager Padilla hopes that a New Mexico league will be established during the coming baseball season and states that the Santa Fe has agreed to make a ten-men rate this year, fifteen men being required last year. Already games have been asked for by Santa Fe and Carthage, both of whom have excellent teams. Other towns either have teams or are already organizing, among which are Carthage, Gallup, Winslow, Raton, Santa Fe, Las Vegas and Belen and games could be arranged with them all at a small expense.

Manager Padilla is very anxious for a game with Trinidad, Colo., and should arrangements with that organization be made, a close contest may well be looked for as both aggregations are among the top notchers of the southwest. The following will represent the Barcelas line-up for the coming season: Pena, catcher; Weeks and Hidalgo, pitchers; Perea, first base; Gonzales, second base; Salazar, third base; Alarid, short stop; DeBlasi, left field; Luna, center; Narvis, right field. Others are being given a try-out and some promising players are being given a chance for positions on the team.

ORDERS TONS OF GLASS FOR HIS GREEN HOUSE

Florist Plans Extension of His Plant and Will Grow Flowers on Large Scale.

The carnation war, which started in this city a few weeks ago, will result in giving Albuquerque more glass area, as far as green houses are concerned, than all the rest of New Mexico, El Paso, Texas, and Arizona.

Byron H. Ives, the original florist of Albuquerque, who has had a large plant located at the corner of Santa Fe avenue and Fourth street for many years, announced yesterday that he would give Albuquerque the biggest greenhouse in the southwest. He said that he had decided to add 33,000 feet of glass to his present plant with a new building and modern arrangements for caring for flowers.

Mr. Ives' green house now covers 15,000 square feet, and occupy the larger part of one block. To make room for the additional house he will move two small cottages located on one corner of his land. These he has offered for sale, and they will be moved away as soon as sold. The new buildings will face Fourth street and be directly opposite the new residence he built last year. The new houses will include carnation rooms, a rose house, a smilax, asparagus and fern house, a conservatory and display room, an office and salesroom and packing rooms. A new 85-horse power boiler will be added to his heating plant.

Mr. Ives' order of eighteen tons of glass is the largest single order of glass ever sent out of Albuquerque. It will comprise almost a carload.

POULTRY PAN-ACEA PAYS THE GROCERY BILLS.

One user of Dr. Hess Poultry Pan-acea said "Our hens last year, while feeding Dr. Hess Poultry Pan-acea paid for the extra feed bought them, having raised no corn to speak of, also bought all of our groceries and nearly all of the other household necessities, and part of the food for the stock." We will guarantee Dr. Hess Poultry Pan-acea to pay for itself many times in increased egg production, besides curing poultry diseases. It is sold on a written guarantee, 1 1/2 lbs. 25c; 5 lbs. 60c.

GOVERNOR CURRY MAY GO ON THE EXCURSION

Officials of the Territory and Santa Fe Businessmen Are to be Asked to Join Albuquerqueans.

Morell Law, traffic manager for the New Mexico Central railroad, gets in the game on the Albuquerque trade excursion. The New Mexico Central management is particularly anxious to be host to the excursion from Willard to Santa Fe, and will assist in the preparations as far as circumstances will permit.

Mr. Law joined W. P. Garside, traveling passenger agent for the Santa Fe, this morning in making a canvass of the city, talking up the excursion. The local committee has gone about as far as it can with the arrangements until after a date is decided upon; and that cannot be decided until after the return of E. L. Medler, president of the Commercial club, from Santa Fe. Mr. Medler's business there will probably be completed tomorrow. While the details of his mission have not been made public it is believed that it has to do with the inviting Santa Fe business men and members of the official circle to go on the excursion. The date will likely be set to suit Governor Curry. The presence of the governor on the pilgrimage seems greatly necessary to its success. He was one of the live ones on the excursion last year and doubtless he will be with the excursion again this year.

OLD CAP'N KAAS LIVING LIKE KING

Former Albuquerque Resident Writes to Friend Here Telling of Life Since He Left New Mexico.

That New Mexico has representative boosters in all parts of the globe has long since been a settled fact. The latest representative to be heard from is Herman Kaas, a former resident of this city, who is now sailing on foreign waters as captain of a ship. A letter from Mr. Kaas was received this morning by Mr. Ben Bothe of the St. Elmo saloon. The missive was written aboard the captain's ship "Bryssel" and dated from the port of Dakar, Africa, on the 29th of January. Prior to about a year ago, when he took charge of the ship, Mr. Kaas, better known to his Albuquerque friends as "Cap" Kaas, made his home in this city, living here for about three years. The letter follows:

"Dear Friend: On account of your birthday, I herewith send you my best congratulations and wish you many happy returns of the day when we had many a good drink and jolly talk together. I am doing well now and will be on the ship if it will last a few more years. I have a fine steamer and am living like a king. Some day I might be sent over to the states and then you must take that trip along with me that we so often spoke about. I will guarantee you a good time. I am thankful to New Mexico where I regained my health and am advertising it wherever I go in the world. From here I am going to River Gambia to load peanuts for Marseilles. Remember me to all the good friends, of which I have many, in Albuquerque.

With kind regards to yourself and family, yours truly
(Signed) H. KAAS.

THE MAN AND WOMAN FORFEITED BONDS

They Failed to Appear in Court When Case Was Called This Morning.

Things happened rapidly at the court house this morning for John Myers alias John Maure, the man who is indicted jointly with a woman named Rose Weill on the charge of violating the Edmunds act. When Judge Abbott called the case of the United States versus Myers and Weill for trial and neither the defendants nor their attorneys, Hickey & Moore, appeared, he ordered a forfeiture of their bonds. Myers' bond was \$500 and the bond of the woman was \$150. A few minutes later Myers was arrested by Under Sheriff Heyn and taken to the county jail on a commitment issued by Judge Abbott last fall charging contempt of court. Judge Abbott had ordered Myers to pay Mrs. Myers, a woman claiming to be his wife, \$10 a week for the support of her two children, which he refused to do. The bondsmen of Myers and Rose Weill were Henry Westerfeld and H. C. Paulson.

This afternoon the United States petit jury is busy with the trial of Jose E. Corilla, who is charged with selling liquor to Indians. The United States grand jury was still grinding today, but will probably complete its work tomorrow.

50 Percent of the Population of the United States

Live in rural districts remote from physicians or drug stores, and they are obliged to depend upon proprietary medicines to a very great extent. To the women in these homes such standard remedies as Lydia E. Pinkham's Vegetable Compound come as a boon and a blessing. Records show that it has cured more women of those dread feminine ills than any other remedy.

Any part or all of the first floor of the Luna and Strickler building is now ready for occupancy and will be leased to responsible parties. Any alterations desired will be made to suit tenants. Total floor space, 12,000 square feet. Basement same dimensions. Steam heat and all other modern improvements. Apply W. E. Strickler.
